

December 9<sup>th</sup>, 2021

Telkom Recruitment team,  
Telkom Kenya Limited,  
Telkom Plaza – Ralph Bunche Rd.  
PO Box 30301-00100, Nairobi.

Dear Sir/Madam

I am writing to express my interest in securing a position at Telkom Kenya Limited. My name is Lyn Gakii, a student engineer who has recently finished her BSc in Electrical and telecommunication engineering. I am set to graduate on 17<sup>th</sup> of December this year, with a first class honors. I hope to start my career with Telkom Kenya because the company is a wonderful fit with my professional experience, personal interests and career goals.

My area of focus and interest varies from telecommunications to networking and to programming. It is my judgement that these three fields are highly co-related to each other and as such, one of my career goals is to acquire as much experience as I can in them. I have worked as a telecommunication engineer where I have gained technical skills alongside analytical and problem solving skills. The NOC department, particularly, has helped me build my team-building qualities and develop a quick response to problems. Working with clients in the network design and planning department has exposed me to the business and strategy side of engineering. This has provided me with a deeper understanding of multi-faceted problems that telecom companies encounter in their day to day operations. I now fully understand how important it is to have great team dynamics in today's multidisciplinary environment.

My experience as a telecommunication engineer has so far been rewarding. I hope to work for a company that will help me integrate IT and telecommunication and I believe Telkom is my match as per the company's objectives.

I am readily available via email or phone in order to arrange an interview. I enthusiastically look forward to hearing from you soon.

Thank you for your consideration

Sincerely,

Lyn Gakii Gitobu
